### **BUA 3,777 Sq Ft An Environment Friendly Community for People Who are Conscious**

A community that has a conscience! Socially, economically and environmentally sustainable. Functions on 100% reused and recycled water, 100% recycled waste, 100% renewable energy, green production, mobility via electric cars and much more.

A lifestyle, a city of tomorrow. The solar panels within the community provide 30% of the electricity reducing the DEWA bill, the community is built along a green belt where silver domes run through the belt. Community members can lease their own piece of a patch to farm and grow their own vegetables, another beautiful feature of the community is recycled water, the grey water from the community goes to a recycling plant where the recycled water is used to water the community as well as provide drinking/useable water to the community. The community also has an equestrian center, a school, an innovation center, school, a sustainable hotel and a community center.

The villas are built with double insulated walls making it heat insulated, and the glass is double glazed to keep the rooms fresh, there is a beautiful roof deck with a

small pantry. Residents can access their villas through electric cars, walking or cycling. There are multiple car parks located across the community to make the villas accessible.
